

Tim MANDER MP

Member for **Everton**

Media Release

Mander welcomes minor improvements to Stafford Road

Tim Mander, State Member for Everton would like to advise that work will commence to lay new asphalt along Stafford Road between Shand Street and South Pine Road in the next fortnight.

The project will involve removing and replacing the existing road surface and new line-marking.

“I appreciate the frustration for motorists as this roadwork is done but hopefully these repairs will make for a safer smoother surface when they are complete,” Mr Mander said.

Mr Mander asks that motorists drive safely and be mindful of road workers and traffic control while the work is in progress.

To minimise traffic disruptions, works will be carried out at between 8pm and 5am, Monday to Saturday. Single lane closures and reduced speed limits will apply during the works.

Work is expected to be completed by late May 2017.
