Media Statement from Shadow Treasurer Tim Mander: Mid-Year Economic and Financial Review

Thursday 13 December, 2018

'It's alarming that that our debt is increasing despite record royalties.

'It's astonishing that employee expenses have blown out by almost \$1 billion since the Budget just five months ago.

'Queensland has the highest unemployment rate in the nation and there's no good news in this update for people looking for a job.

'I feel sorry for the 165,000 Queenslanders who will be out of work this Christmas.'
